Course Description

This course is designed for teachers and administrators of all grade levels, and provides basic conflict management and mediation instruction, skill development, strategies, and practice based on the process of peace-making and restorative justice-based discipline in the classroom. Restorative Strategies is a collaborative work of Positive Discipline, Jane Nelsen and Positive Discipline in the Classroom by Jane Nelsen, Lynn Lott, and Stephen Glenn as well as *Circles* and *Social Emotional Training Skills*. Our program uniquely blends theory, strategies and best practices of conflict resolution education, problem solving skills, peacemaking, and restorative justice in the classroom and in schools. Understanding the core issues of facilitating student cooperation is presented in a clear and concise manner to support the positive behavior of all students. It is especially effective with those students who are most resistant to authority by involving them in processes that empower them to be responsible and accountable. Restorative Strategies transforms discipline into learning experiences that decrease stress, improve effectiveness, and build relationships.

Note: Required textbooks must be acquired separately.

National Standards Addressed in This Course

National Board for Professional Teaching Standards (NBPTS)

<http://www.nbpts.org/standards-five-core-propositions/>

First published in 1989 and updated in 2016, [*What Teachers Should Know and Be Able to Do*](#) articulates the National Board's Five Core Propositions for teaching. The Five Core Propositions - comparable to medicine's Hippocratic Oath — set forth the profession's vision for accomplished teaching. Together, the propositions form the basis of all National Board Standards and the foundation for National Board Certification. Course assignments have been designed so students can demonstrate excellence against these professional teaching standards whenever possible.

- Proposition 1: Teachers are committed to students and their learning
- Proposition 2: Teachers know the subject they teach and how to teach those subjects to students
- Proposition 3: Teachers are responsible for managing and monitoring student learning
- Proposition 4: Teachers think systematically about their practice and learn from experience
- Proposition 5: Teachers are members of learning communities

The CEP's Character Education Quality Standards (11 Principles of Effective Character Education) - <http://www.character.org/more-resources/11-principles/>

1. Character education promotes core ethical values as the basis of good character.
2. "Character" must be comprehensively defined to include thinking, feeling and behavior.
3. Effective character education requires an intentional, proactive and comprehensive approach that promotes the core values in all phases of school life.
4. The school must be a caring community.
5. To develop character, students need opportunities for moral action.
6. Effective character education includes a meaningful and challenging academic curriculum that respects all learners and helps them succeed.
7. Character education should strive to develop students' intrinsic motivation.
8. The school staff must become a learning and moral community in which all share responsibility for character education and attempt to adhere to the same core values that guide the education of students.
9. Character education requires moral leadership from both staff and students.
10. The school must recruit parents and community members as full partners in the character-building effort.

11. Evaluation of character education should assess the character of the school, the school staff's functioning as character educators, and the extent to which students' manifest good character.

Throughout the course participants will be communicating with the instructor and their classmates on a regular basis using asynchronous discussion forums. A virtual office is utilized for class questions and students are provided with instructor contact information in the event they want to make email or phone contact. In addition, students are encouraged to email or phone the instructor at any time. Students will also receive feedback on the required assignments as they are submitted.

Discussion Forums

Participation is an important expectation of this course and all online courses. Online discussions promote reflection and analysis while allowing students to appreciate and evaluate positions that others express. While students may not be engaging with the same students throughout this course they will be expected to offer comments, questions, and replies to the discussion question whenever possible. The faculty role in the discussion forum is that of an observer and facilitator.

Coursework Hours

Based on the Carnegie Unit standard, a unit of graduate credit measures academic credit based on the number of hours the student is engaged in learning. This includes all time spent on the course: reading the textbook, watching videos, listening to audio lessons, researching topics, writing papers, creating projects, developing lesson plans, posting to discussion boards, etc. Coursework offered for FPU Continuing Education graduate credit adheres to 45 hours per semester unit for the 900-level courses. Therefore, a student will spend approximately 90 hours on a typical 2-unit course or 135 hours on a typical 3-unit course.

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Students with disabilities should contact the Academic Support Center to discuss academic and other needs as soon as they are diagnosed with a disability. Once documentation is on file, arrangements for reasonable accommodations can be made.
