Course Description

Why are so many students graduating from Christian schools, then abandoning their beliefs after the first or second year of college? If Christian schools are incorporating Biblical integration into their classes, why are students still falling away? As Christian teachers, we need to provide opportunities for our students to examine their own thinking and determine if their beliefs are in line with reality. Biblical Worldview Integration is not attaching a Bible verse to every lesson; rather, it is learning to see all of creation and all knowledge under the Lordship of Jesus Christ. This course will introduce effective strategies to help your students develop habits of thinking that are based on the truth and grounded in God's word. This course counts toward both ACSI's Christian Philosophy of Education (CPoE) requirement and educational studies hours for renewal of ACSI certification.

Note: Required textbooks must be purchased separately.

National Standards Addressed in This Course

National Board for Professional Teaching Standards (NBPTS) (www.nbpts.org)

The NBPTS was created in 1987 after the Carnegie Forum on Education and the Economy's Task Force on Teaching as a Profession released A Nation Prepared: Teachers for the 21st Century. The five core propositions form the foundation and frame the rich amalgam of knowledge, skills, dispositions and beliefs that characterize National Board Certified Teachers. (NBCTs) Course assignments have been designed so students can demonstrate excellence against these professional teaching standards whenever possible.

1. Teachers are committed to students and their learning.
2. Teachers know the subject they teach and how to teach those subjects.
3. Teachers are responsible for managing and monitoring student learning.
4. Teachers think systematically about their practice and learn from experience.
5. Teachers are members of learning communities.

Common Core State Standards (www.corestandards.org)

The Common Core State Standards provide a consistent, clear understanding of what students are expected to learn, so teachers and parents know what they need to do to help them. The standards are designed to be robust and relevant to the real world, reflecting the knowledge and skills that our young people need for success in college and careers. With American students fully prepared for the future, our communities will be best positioned to compete successfully in the global economy.

College and Career Readiness Anchor Standards for Reading

(<http://www.corestandards.org/ELA-Literacy/CCRA/>)

The grades 6–12 standards on the following pages define what students should understand and be able to do by the end of each grade span. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate.

- Assess how point of view or purpose shapes the content and style of a text.

Integration of Knowledge and Ideas

- Integrate and evaluate content presented in diverse formats and media, including visually and quantitatively, as well as in words.

- Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.
- Read and comprehend complex literary and informational texts independently and proficiently.

ACSI REACH 2.1 Standards for EE-12 North American and International Schools (2012 Edition, Standard 5.5a)

(https://www.acsi.org/Documents/School%20Improvement/Accreditation/REACH%202_1%20EE%20Evidence%20Guide_Fillable%208-17-17.pdf)

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Students with disabilities should contact the Academic Support Center to discuss academic and other needs as soon as they are diagnosed with a disability. Once documentation is on file, arrangements for reasonable accommodations can be made.
