Course Description

Document cameras create new possibilities for presenting curriculum whether you are a teacher, principal, curriculum specialist or librarian. This course, Enhance Your Lessons with Document Cameras will provide dynamic ways to present lessons for the classroom. If you have a document camera, an LCD projector and an imagination, you are ready to start. Learn how to move beyond simply displaying images to a whole new way of enhancing visual learning experiences. This course provides over 160 ideas now being used by teachers in their classrooms. Students in this course will develop lessons that incorporate the creative use of visual media that support both their local learning goals and the Common Core Student Standards. Educators from the preschool level to the adult level will benefit tremendously from this course.

Note: There is no required textbook for this course.

National Standards Addressed in This Course

National Board for Professional Teaching Standards (NBPTS)

<http://www.nbpts.org/standards-five-core-propositions/>

First published in 1989 and updated in 2016, [*What Teachers Should Know and Be Able to Do*](#) articulates the National Board's Five Core Propositions for teaching. The Five Core Propositions - comparable to medicine's Hippocratic Oath — set forth the profession's vision for accomplished teaching. Together, the propositions form the basis of all National Board Standards and the foundation for National Board Certification. Course assignments have been designed so students can demonstrate excellence against these professional teaching standards whenever possible.

- Proposition 1: Teachers are committed to students and their learning
- Proposition 2: Teachers know the subject they teach and how to teach those subjects to students
- Proposition 3: Teachers are responsible for managing and monitoring student learning
- Proposition 4: Teachers think systematically about their practice and learn from experience
- Proposition 5: Teachers are members of learning communities

National Educational Technology Standards (NETS- for Teachers)

The projects contained in this course are closely aligned to the ISTE National Educational Technology Standards (NETS- for Teachers). - I. Facilitate and Inspire Student Learning and Creativity
- II. Design and Develop Digital-Age Learning Experiences and Assessments
- III. Model Digital-Age Work and Learning
- IV. Promote and Model Digital Citizenship and Responsibility
- V. Engage in Professional Growth and Leadership

In addition, students are encouraged to email or phone the instructor at any time. Students will also receive feedback on the required assignments as they are submitted.

Discussion Forums

Participation is an important expectation of this course and all online courses. Online discussions promote reflection and analysis while allowing students to appreciate and evaluate positions that others express. While students may not be engaging with the same students throughout this course they will be expected to offer comments, questions, and replies to the discussion question whenever possible. The faculty role in the discussion forum is that of an observer and facilitator.

Coursework Hours

Based on the Carnegie Unit standard, a unit of graduate credit measures academic credit based on the number of hours the student is engaged in learning. This includes all time spent on the course: reading the textbook, watching videos, listening to audio lessons, researching topics, writing papers, creating projects, developing lesson plans, posting to discussion boards, etc. Coursework offered for FPU Continuing Education graduate credit adheres to 45 hours per semester unit for the 900-level courses. Therefore, a student will spend approximately 135 hours on a typical 3-unit course.

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Students with disabilities should contact the Academic Support Center to discuss academic and other needs as soon as they are diagnosed with a disability. Once documentation is on file, arrangements for reasonable accommodations can be made.
