Course Description

All Things Google will introduce educators to several Google products, including Google Classroom, Advanced Search, Google Drive, Google News, Google Sites, YouTube, and more. Significant emphasis will be placed on how these tools can impact classroom practice, including writing, teaching, and reflecting on lesson plans using Google tools. Students will also create “How-To” screencasts to teach their students and/or colleagues how to use these Google tools.

This course is designed for the instructor who wants to utilize free, powerful, collaborative tools with their colleagues, students, and community. Utilizing various websites, participants will learn how these Google products work, and how they can use them in their educational role. Many of these products interact with each other, by “embedding”, etc. There is something here for Elementary, Middle School, or High School teachers. All national/Common Core curriculum standards can be taught using these tools, as well.

Note: There is no required textbook for this course.

Throughout the course participants will be communicating with the instructor and their classmates on a regular basis using asynchronous discussion forums. Students are provided with instructor contact information in the event they want to make email or phone contact. In addition, students are encouraged to email or phone the instructor at any time. Students will also receive feedback on the required assignments as they are submitted.

Forums

Participation is an important expectation of this course and all online courses. Online discussions promote reflection and analysis while allowing students to appreciate and evaluate positions that others express. While students may not be engaging with the same students throughout this course, they will be expected to offer comments, questions, and replies to the discussion question whenever possible. The faculty role in the discussion forum is that of an observer and facilitator.

Coursework Hours

Based on the Carnegie Unit standard, a unit of graduate credit measures academic credit based on the number of hours the student is engaged in learning. This includes all time spent on the course: reading the textbook, watching videos, listening to audio lessons, researching topics, writing papers, creating projects, developing lesson plans, posting to discussion boards, etc. Coursework offered for FPU Continuing Education graduate credit adheres to 45 hours per semester unit for the 900-level courses. Therefore, a student will spend approximately 135 hours on a typical 3-unit course.

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Students with disabilities should contact the Academic Support Center to discuss academic and other needs as soon as they are diagnosed with a disability. Once documentation is on file, arrangements for reasonable accommodations can be made.
