

IND-1242A - 8 Habits of Highly Effective People for Teachers

Course Syllabus

- **Instructor: Dr. Maryam Torbati**
- **Number of Credits/Units: 3 Semester Credits/Units**
- **Format: Online Self-Paced Course**
- **You will have 3 months from your date of registration to complete the course.**

Course Overview:

Over the past three decades author Stephen Covey's *7 Habits of Highly Effective People* has led teachers to effectiveness in their lives and in their classroom. Now, the 8th habit ramps that effectiveness up and turns it into greatness. As author Stephen Covey says, "Habits are powerful factors in our lives. Because they are consistent, often unconscious patterns, they constantly, daily, express our character and produce our effectiveness...or ineffectiveness." This workshop course builds on the seven habits of being and effective teacher to becoming not just an effective teacher but becoming a great teacher.

Referring to teachers, Stephen Covey suggests that they should constantly question what they are teaching in the classroom. If they understand the big picture that as a teacher, when they empower students with leadership tools, they do not have to be the ultimate decision maker(s). The students will also be in a leadership position. According to Covey, we have to learn how to adapt and get comfortable with the idea of change and promote a culture of sharing leadership with students.

Course Objectives:

By the end of the course, students will be able to:

1. Demonstrate a deep knowledge of the 8 habits and performance-based approaches to effective learning.
2. State a clear definition of your top priorities and the results you want.
3. Develop strong relationships based on mutual trust.

4. Be prepared to deal with difficult circumstances before they happen.
5. Apply a variety of strategies to bring and enhance the 8 habits to your learning, teaching, and problem-solving skills.
6. Discuss and identify the 8 habits and how they align to common core standards.
7. Implement the 8 habits in reading, language arts, math, science, social studies, and many other subjects.
8. Teach the 8 habits for deep learning as it relates to obtaining and maintaining excellence.
9. Identify the 8 habits and how they work step by step.
10. Identify major benefits of using the 8 habits.
11. Discuss problem solving using the 8 habits.
12. Describe how this can help ELD & Special Ed students.
13. Summarize the importance of the 8 habits in the classroom.
14. Formulate questions about aspects of the 8 habits and why are they important.
15. Analyze how learners learn and how the 8 habits can help.
16. Create appropriate materials to teach the 8 habits.
17. Align all of these to Common Core.
