Course Description

A Nation of Immigrants explores the multi-ethnic heritage of the United States from a multi-disciplinary, but primarily historical, perspective. Especially in light of the current controversy over immigration policy, this course provides valuable insights on the experiences of earlier generations who came to this land as “new” Americans, and the reaction they generated from those already here. The trials and triumphs of those “teeming masses yearning to breathe free” in America is often a story of painful discrimination and injustice, but on the other hand, probably no nation in human history has been more welcoming to others. Covering a variety of multi-cultural issues and perspectives, this course will help explain the “how” and “why” of America’s rise to greatness as “a nation of immigrants.” Assignments have been developed to align with Common Core State Standards for Literacy and Writing in History/Social Science.

Note: Required textbook and video must be acquired separately.

National Standards Addressed in This Course

National Board for Professional Teaching Standards (NBPTS)

<http://www.nbpts.org/standards-five-core-propositions/>

First published in 1989 and updated in 2016, [*What Teachers Should Know and Be Able to Do*](#) articulates the National Board's Five Core Propositions for teaching. The Five Core Propositions - comparable to medicine's Hippocratic Oath — set forth the profession's vision for accomplished teaching. Together, the propositions form the basis of all National Board Standards and the foundation for National Board Certification. Course assignments have been designed so students can demonstrate excellence against these professional teaching standards whenever possible.

- Proposition 1: Teachers are committed to students and their learning
- Proposition 2: Teachers know the subject they teach and how to teach those subjects to students
- Proposition 3: Teachers are responsible for managing and monitoring student learning
- Proposition 4: Teachers think systematically about their practice and learn from experience
- Proposition 5: Teachers are members of learning communities

Instructor/Student Contact Information

This course requires a minimum of three contacts between the student and the instructor. The first contact point occurs after the student enrolls in the course. The instructor contacts the student by phone to welcome them to the course and Fresno Pacific University. The instructor provides an overview of the course, material, assignments, and expectations for successful completion of the course. This initial interaction also establishes a foundation for future interactions (via email or phone). The second interaction should occur when the student is approximately half-way through the course. The instructor can field any assignment questions and learn what has been most beneficial to the student so far. The final conversation occurs at the end of the course. This interaction provides a final check that all assignments have been completed, final grade request has been submitted, and answer any final questions or concerns.

Coursework Hours

Based on the Carnegie Unit standard, a unit of graduate credit measures academic credit based on the number of hours the student is engaged in learning. This includes all time spent on the course: reading the textbook, watching videos, listening to audio lessons, researching topics, writing papers, creating projects, developing lesson plans, posting to discussion boards, etc. Coursework offered for FPU Continuing Education graduate credit adheres to 45 hours per semester unit for the

900-level courses. Therefore, a student will spend approximately 135 hours on a typical 3-unit course.

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Students with disabilities should contact the Academic Support Center to discuss academic and other needs as soon as they are diagnosed with a disability. Once documentation is on file, arrangements for reasonable accommodations can be made.
