Course Description

Google Certified Educator Level 1 (GCEL1) is for students who want to become Google Certified Educator Level 1 certified or who currently are Google Certified Educator Level 1 certified. The organization, Google for Education, created the certification program and in their words, “is for educators who have learned the fundamentals of using Google tools in the classroom.” To be certified requires going through an online tutorial and passing an exam. The curriculum focuses on several Google tools including: Documents, Sheets, Slides, Forms, Sites, Calendar, Search, Keep, Gmail, Chrome, and YouTube. Within the curriculum, participants are provided with tutorials for each of these tools. The Fresno Pacific University course, GCEL1, extends beyond passing the exam to preparing students to provide professional development to other educators whether it is through workshops or peer coaching. This is accomplished, in part, by learning the unique nature of adult learners and what teaching strategies are most effective. GCEL1 is applicable to all teachers and other professional developers who will be working with fellow educators to enhance their skills in using Google tools and applying them to the classroom setting. This course supports national, state, and local standards and does not require a classroom of students. To find out more information about becoming a Google Certified Educator Level 1 go online to the Google for Education Training Center. This course can be taken for either 2 or 3 units.

Note: There is no required textbook for this course.

National Standards Addressed in This Course

National Board for Professional Teaching Standards (NBPTS)

(<http://www.nbpts.org/standards-five-core-propositions/>)

First published in 1989 and updated in 2016, [*What Teachers Should Know and Be Able to Do*](#) articulates the National Board's Five Core Propositions for teaching. The Five Core Propositions - comparable to medicine's Hippocratic Oath — set forth the profession's vision for accomplished teaching. Together, the propositions form the basis of all National Board Standards and the foundation for National Board Certification. Course assignments have been designed so students can demonstrate excellence against these professional teaching standards whenever possible.

- Proposition 1: Teachers are committed to students and their learning
- Proposition 2: Teachers know the subject they teach and how to teach those subjects to students
- Proposition 3: Teachers are responsible for managing and monitoring student learning
- Proposition 4: Teachers think systematically about their practice and learn from experience
- Proposition 5: Teachers are members of learning communities

National Standards for Teachers

The projects contained in this course are closely aligned to the ISTE National Educational Technology Standards (NETS- for Teachers). This includes all time spent on the course: reading the textbook, watching videos, listening to audio lessons, researching topics, writing papers, creating projects, developing lesson plans, posting to discussion boards, etc. Coursework offered for FPU Continuing Education graduate credit adheres to 45 hours per semester unit for the 900-level courses. Therefore, a student will spend approximately 135 hours on a typical 3-unit course.

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Students with disabilities should contact the Academic Support Center
