Course Description

This course, Google Certified Educator Level 1 (**GCEL1**), is for students who want to pass the GCEL1 exam to become certified and to expand their skills and knowledge on using Google applications to improve instruction, communication, and personal productivity. The organization Google for Education created the GCEL1 program. It applies to all teachers and other professional developers who work with fellow educators to enhance their skills in using Google tools and applying them in the classroom. Certification requires going through Google for Education's online tutorial and passing the GCEL1 exam. The applications covered in this course include Documents, Sheets, Slides, Forms, Sites, Calendar, Gmail, Classroom, and Add-ons. Tutorials and assignments include learning ways to engage students, individualizing instruction, using the flipped classroom instructional model, and teaching digital literacy. You will learn ways to streamline your workflow, improve communication, and use collaborative features in the applications. This course aligns with national, state, and local standards and does not require a classroom setting.

This course can be taken for either 2 or 3 units. Each topic section is labeled accordingly. The third unit has hands-on assignments using Google Apps, including Calendar, Documents, Forms, and Groups. Tutorials and assignments focus on online communication and interactions. These apps will streamline communication, including creating groups, inviting people to events, sharing a calendar, and collaborating on a document.

Note: There is no required book for this course.

National Standards Addressed in This Course

National Board for Professional Teaching Standards (NBPTS) (<http://www.nbpts.org/standards-five-core-propositions/>)

First published in 1989 and updated in 2016, *What Teachers Should Know and Be Able to Do* articulates the National Board's Five Core Propositions for teaching. The Five Core Propositions - comparable to medicine's Hippocratic Oath — set forth the profession's vision for accomplished teaching. Together, the propositions form the basis of all National Board Standards and the foundation for National Board Certification. Course assignments have been designed so students can demonstrate excellence against these professional teaching standards whenever possible.

- Proposition 1: Teachers are committed to students and their learning
- Proposition 2: Teachers know the subject they teach and how to teach those subjects to students
- Proposition 3: Teachers are responsible for managing and monitoring student learning
- Proposition 4: Teachers think systematically about their practice and learn from experience
- Proposition 5: Teachers are members of learning communities

Common Core State Standards (CCSS) (www.corestandards.org)

The Common Core State Standards provide a consistent, clear understanding of what students are expected to learn, so teachers and parents know what they need to do to help them. The standards are designed to be robust and relevant to the real world, reflecting the knowledge and skills that our young people need for success in college and careers. With American students fully prepared for the future, our communities will be best positioned to compete successfully in the global economy.

Coursework Hours

Based on the Carnegie Unit standard, a unit of graduate credit measures academic credit based on the number of hours the student is engaged in learning. This includes all time spent on the course: reading the textbook, watching videos, listening to audio lessons, researching topics, writing papers, creating projects, developing lesson plans, posting to discussion boards, etc. Coursework offered for FPU Continuing Education graduate credit adheres to 45 hours per semester unit for the 900-level courses. Therefore, a student will spend approximately 135 hours on a typical 3-unit course.

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Once documentation is on file, arrangements for reasonable accommodations can be made. For more information and for downloadable forms, please go to <https://www.fresno.edu/departments/disability-access-education>.
