Number of Graduate Semester Units: 3 units
Target Audience: K - 8th grade teachers
Course Access: ce-connect.fresno.edu

Course Description

Drawing Magic provides students the opportunity to personally explore twenty unusual drawing experiences. Having been specifically designed to build confidence in the K - 8 teacher with little or no previous art training or background in art education, this unique art course requires no “artistic talent” or “skill”. *Drawing Magic* can serve as a first-time exposure to drawing, or it can serve as a continuation of a teacher’s elementary art education training. (Additionally, teachers who do possess a significant background in art and in art education, will find this course to be of value as well.)

Filled with thoughtful, meaningful art experiences designed to support the National Visual Arts Standards, *Drawing Magic* focuses on the development of both “traditional” drawing skills, as well as an exploration of “design based” / non-objective / abstract drawing assignments. (The latter are typically less “threatening” for the beginner and will build creative confidence.) This course uses commonly available materials in unusual ways, and presents each experience in a simple, step-by-step format that guarantees enjoyment, learning, and success. What’s more, each of these classroom-ready lessons has been written in such a way that presenting them to one’s own students at a later date will be effortless. Included in each of the drawing experiences presented in the course is a list of materials used, lesson objectives / learning outcomes, and suggestions for motivation, procedure, clean-up, and display. In addition to emphasizing critical thinking and higher order questioning and reflection, this course also includes numerous suggestions for a wide variety of curriculum connections and lesson integration.

Note: There is no required book for this course.

Course Materials

Note: a variety of materials commonly found in the K-8 classroom will be needed to complete the 20 experiences in this course. (No “exotic” or costly art supplies are required.)

Online Resources: Relevant online resources that support the course content and encourage further investigation will be available throughout the course assignments. Active hyperlinks are utilized throughout the course and will link to the appropriate information when clicked. These include videos, podcasts, worksheets, online activities, journal articles and other resources.

Moodle: Moodle is a web-based learning management system used to support flexible teaching and learning in both face-to-face and distance courses (e-learning).

Course Dates

Self-paced; students may enroll at any time and take up to one year, from the date of registration, to complete assignments. Students may complete assignments in no less than three weeks for a 3-unit course (one week per unit).

Throughout the course participants will be communicating with the instructor and their classmates on a regular basis using asynchronous discussion forums. Students are provided with instructor contact information in the event they want to make email or phone contact. In addition, students are

encouraged to email or phone the instructor at any time. Students will also receive feedback on the required assignments as they are submitted.

Forums

Participation is an important expectation of this course and all online courses. Online discussions promote reflection and analysis while allowing students to appreciate and evaluate positions that others express. While students may not be engaging with the same students throughout this course, they will be expected to offer comments, questions, and replies to the discussion question whenever possible. The faculty role in the discussion forum is that of an observer and facilitator.

Coursework Hours

Based on the Carnegie Unit standard, a unit of graduate credit measures academic credit based on the number of hours the student is engaged in learning. This includes all time spent on the course: reading the textbook, watching videos, listening to audio lessons, researching topics, writing papers, creating projects, developing lesson plans, posting to discussion boards, etc. Coursework offered for FPU Continuing Education graduate credit adheres to 45 hours per semester unit for the 900-level courses. Therefore, a student will spend approximately 135 hours on a typical 3-unit course.

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Students with disabilities should contact the Academic Support Center to discuss academic and other needs as soon as they are diagnosed with a disability. Once documentation is on file, arrangements for reasonable accommodations can be made.
